Sebastian **Rowan**

PH.D CANDIDATE IN CIVIL AND ENVIRONMENTAL ENGINEERING

University of New Hampshire, Durham, NH

He/Him | sebastian.rowan@unh.edu | sebastianrowan.github.io | sebastianrowan | sebastian-rowan-72490170

I am Ph.D. candidate in civil and environmental engineering researching the impacts of flood events and climate change on people and communities. The goal of my research, is to develop a more comprehensive understanding of the risks posed by floods to enable the development of mitigation efforts that prioritize long-term sustainability and community well-being rather than maximizing financial return on investment.

Education

Ph.D. Candidate, Civil and Environmental Engineering
2024 (Expected)

UNIVERSITY OF NEW HAMPSHIRE — *Durham, New Hampshire*

- Dissertation Title: Assessment of the carbon footprint of flood damages and flood risk management strategies.
- Advisor: Dr. Weiwei Mo

B.S. Environmental Engineering
2016

UNIVERSITY OF NEW HAMPSHIRE — *Durham, New Hampshire*

Experience

ORISE Graduate Research Fellow
Sep. 2020 - Present

U.S. ARMY CORPS OF ENGINEERS, ENGINEER RESEARCH DEVELOPMENT CENTER — *Vicksburg, MS (Remote)*

- Contributed to research efforts to quantify impacts of floods not typically included in cost-benefit analyses for flood risk management projects.
- Lead systematic literature review and metasummary to identify risk factors for mental health impacts of floods
- Contributed to Tier 1 Other Social Effects/Environmental Justice Analysis for the USACE New York/New Jersey Harbors and Tributaries Coastal Storm Risk Management Feasibility Study
- Contributed to social vulnerability analysis of future flooding in the Mississippi River Valley

Research Assistant
Fall 2018, Spring 2020

UNIVERSITY OF NEW HAMPSHIRE — *Durham, NH*

- Resilient Bridge Planning in Mozambique - Bridge Failure Risk from Flooding and Climate Change
- PI: Dr. Kyle Kwiatkowski

Teaching Assisstant
2019 - 2020

UNIVERSITY OF NEW HAMPSHIRE — *Durham, NH*

- CEE 705: Introduction to Sustainable Engineering (Fall 2019, Fall 2020)
- CEE 502: Project Engineering (Spring 2019)

Civil Engineer I-II
2016 - 2018

NEW HAMPSHIRE DEPARTMENT OF TRANSPORTATION, BUREAU OF PLANNING AND COMMUNITY ASSISTANCE — *Concord, NH*

- Contributed to the development of statewide asset management system for culvert and closed drainage systems in partnership with UNH Technology Transfer Center/SADES.

10 Gigabit Ethernet Technician
2014-2017

UNIVERSITY OF NEW HAMPSHIRE INTEROPERABILITY LABORATORY — *Durham, NH*

Summer Intern
2015

NEW HAMPSHIRE DEPARTMENT OF ENVIRONMENTAL SERVICES, AIR RESOURCES DIVISION — *Concord, NH*

Open Source Projects

SVIBUILDR — *Active*

- An R package that allows users to download or construct the CDC's Social Vulnerability Index as a tidyverse or simple features data frame.
- Enables greater flexibility in region selection for SVI analyses than is possible with state- or national-level datasets hosted by CDC.

NSI DATA QGIS PLUGIN — *Active*

- A basic plugin for QGIS that downloads data from the USACE National Structures Inventory for a specified region and adds it to a map.

USEEIO_PY — *Active*

- A Python translation of the USEPA's useeior R package for building and using USEEIO models for life cycle analysis.
